

Hidden Pond Labradors

"Selling Happiness One Puppy at a Time"

**We are small, family run, professional breeders of
Chocolate, Black, and Yellow Labradors.**

Labrador Retriever puppies available

**We are small, family run, professional breeders of
Chocolate, Black, and Yellow Labradors.**

Welcome to Hidden Pond Labradors, where we bring you the very best genetics available today. We use the highest quality sires, usually Grand Champions, to breed our female Labradors. This gives you a quality, healthy, and long living Labrador to provide years of companionship.

We raise all of our Labrador puppies in our home. Our adult Labradors enjoy the eighty seven acres that our kennel is located on, in the beautiful finger lakes region of NY. The long walks through the field ends at their favorite spot, being Labradors this is the large trout pond that they love to swim in.

With a bachelor's degree in Animal Science and Agricultural Engineering our Labradors receive the best care and love possible. We not only bring you strong healthy puppies, we make certain that the mothers get the best care and a happy life. Our dogs are OFA and Cerf tested. Our Labrador puppies come with a one year written health warranty, micro chip, veterinarian health certificates and limited registration able with the AKC. This gives you confidence that all of our animals are well cared for. We also have a lifetime placement guarantee so that none of our dogs end up in an animal shelter.

Labrador Puppies Available

We are pleased to announce an exclusive litter of chocolate Labrador puppies from our Lab Hannah and a Labrador from Canada Espresso. Espresso is an AKC Grand Champion, as well as a Canadian Champion Labrador. Hannah is sired by a Grand champion Labrador named Copy out of Massachusetts.

These are very loving puppies for those who are looking for the very best in Labradors. They really love to be with people and are looking to go home to a loving family. They have all of those great Labrador traits.

They come with a one year written health warranty, Micro chip, first shots, and a veterinarian health certificate. The puppies are raised in our home. They have that tail wagging, body wiggling, face licking personality that makes chocolate Labradors so popular. Only Two male chocolate lab puppies remain available.

A litter of black and yellow puppies will be ready soon from Harmony and a champion from California named Bondo.
